

# Hello,

I'm a Designer who enjoys coding for the web. I'm at home when mixing design with prototyping. I enjoy user-testing and research when solving design problems.

## Professional Experience

*August 2018 — Present*

### Bank of New Zealand — Digital Designer

- 01.** Prototyped & released a blog style, more helpful face for the bank called 'Life Moments' an online project delivered for the public facing website.
- 02.** Ongoing redesign project to reimagine the BNZ www experience.

*May 2015 — August 2018*

### Vocus Communications — UI/UX Lead

Working within an Agile development environment as UI/UX lead for the main application development team at Vocus. The role established UI and component guidelines to ensure the clear direction & alignment of a consistent UI for both marketing and app teams. Worked closely with other dev-team leaders and stakeholders to bring a consistent vision for the applications delivered and used by the wider business.

- 01.** Produced a front-end redesign of Vocus One (Vocus' premier customer portal)
- 02.** Guided other Front End developers and managed UI guidelines within the Application Development team.
- 03.** Designed & Implemented a web-based mobile experience, for managing fibre enclosures across the Vocus Network.
- 04.** Introduced the use of Interactive prototypes in presentations and storyboarding of ideas

## FLUENT WITH

- Sketch
- Adobe Illustrator
- Photoshop
- Fireworks
- HTML5
- CSS3, grid and flexbox
- SVG animation & GSAP
- PostCSS & Sass

## FAMILIAR WITH

- React.js
- Svelte Js (+ Sapper)
- Hugo.io (Static site generator)
- Umbraco (CMS)

## INTERESTED IN

- Design systems
- WebVR / A-Frame
- Three.js
- Matter.js

## OTHER INFO

### LANGUAGE:

Native English speaker with Japanese JLPT-N3 Language proficiency

## Hobbies/Interests

I am interested in music production and help run a small meetup group. I also play field Hockey.

to aid in the UX decision making process.

*September 2010 — April 2015*

### **Creative Feijoa Ltd — Managing Director/Owner**

Successfully ran my own business for 4 years across three different countries. The staple of work was providing front end development for Graphic Design Agencies and other Freelancers.

- 01.** Built & Maintained a large number of user-friendly, content-managed websites using the Umbraco CMS.
- 02.** Produced work for high end fashion & travel clients.

*September 2009 - September 2010*

### **Bview/Geocast Ltd — Front-end Developer / Designer**

Worked at bView - a London startup focused on creating a geo-centric platform for delivering discount vouchers. Was part of a small development team, responsible for all front-facing aspects of bView's sites and applications. Worked on iPhone application "Local Sale Finder" I was responsible for Design and User Experience.

- 01.** Logo development for a new Voucher distribution network. Worked with company directors to answer a brief based on brand requirements.
- 02.** Became more focused on online booking forms across different mobile devices, and how to enrich small screen web experiences.

*March 2006 - August 2009*

### **Alpine Interactive — Web Developer / Designer**

- 01.** Worked with Press and media clients, such as the Spectator, the Independent, Editorial Intelligence and Full Circle Films.
- 02.** Delivered Football World Cup 2006 website for the telegraph.co.uk

*March 2002 - March 2006*

### **Infocube.net — Senior Interface Designer**

- 01.** Designed the UI for a 3D cube based navigation and information discovery tool that ran on PC, Web, and Mobile devices

## **References**
